

the  
**A V E N U E S**  
street fair

This September (2023), our project team participated in the annual Avenues Street Fair as part of the City Creek Water Treatment Plant (CCWTP) Upgrade Team!

This community event provided the CCWTP team with an opportunity to:

- Introduce members of the community to the project.
- Inform members of the public about the construction start date and canyon closure.
- Answer questions about the plant's history and planned upgrades.

The project team was able to:

- Interact with 313 members of the public.
- Sign up interested members for canyon closure updates.
- Share project information with Mayor Mendenhall and City Council Member Chris Wharton.

Sign Up for City Creek Canyon Updates!

Text **CCWTP** to **833-271-7589** to receive text alerts about City Creek Canyon access during construction.
